PROFESSIONAL SUMMARY

Senior Product Manager with **6+ years of product management experience** and **8+ years across digital products, growth, and commercialization**. Built and scaled business-to-business software as a service (B2B SaaS) and artificial intelligence (AI) products across discovery, strategy, zero-to-one development, launch, adoption, monetization, and growth. Increased organic **pricing-funnel conversion by 82%** without additional acquisition spending and helped grow a creator network from **25 to 10,000+ creators across 70 countries**. Hands-on experience prototyping with large language models (LLMs), AI agents, retrieval-augmented generation (RAG), product evaluations, analytics, and AI-assisted software development.

CORE SKILLS

Product Leadership: AI product management, product vision and strategy, product roadmaps, customer discovery, zero-to-one product development, full product lifecycle ownership, product requirements, feature prioritization, stakeholder management, cross-functional leadership

Growth and Commercialization: B2B SaaS, product-led growth, product analytics, conversion optimization, A/B testing and experimentation, pricing strategy, monetization, go-to-market strategy, customer adoption, lifecycle marketing, affiliate programs

AI Products: Generative AI, LLM products, AI agents, multi-agent orchestration, RAG, prompt design, AI product evaluation, adversarial testing, prompt-injection defense

Analytics and Tools: Structured Query Language (SQL), Google Analytics 4 (GA4), Mixpanel, Amplitude, Claude Code, GitHub Actions, Supabase, Next.js, Figma, Jira, Linear, Railway, Lovable

PROFESSIONAL EXPERIENCE

Senior Product Manager | Link Whisper | Remote, India | January 2026 - August 2026

Owned product strategy, growth, conversion, lifecycle, and partner monetization for a WordPress SEO SaaS product.

- Increased organic pricing-funnel conversion from **1.39% to 2.53%**, an **82% relative improvement**, and direct conversion from **1.97% to 3.00%** across seven iterations covering positioning, pricing, and checkout, measured through GA4 with no additional acquisition spending.
- Increased returning-customer pricing-to-checkout conversion from **45% to 56%** by replacing a stalled backend dependency with a client-side entitlement flow.
- Reduced recurring support demand by **approximately 50%** across six inquiry categories by addressing product gaps and creating targeted self-service documentation.
- Conducted **100+ customer conversations**, synthesized 19 recurring themes, and prioritized eight focus areas that informed the affiliate redesign, checkout overhaul, user interface roadmap, and AI product roadmap.
- Redesigned the affiliate program for **4,232 partners using persona segmentation** and a five-tier recurring commission structure, then instrumented the partner portal to establish an activation baseline.
- Shipped a complete plugin user interface overhaul and four features through an AI-assisted development workflow, and launched **24 behavioral lifecycle emails** across seven sequences with a **55% average open rate**.

Teaching Assistant and Product Mentor, Part-time | Masai | Remote, India | December 2025 - August 2026

- Mentored 200+ learners in product management, discovery, prioritization, roadmapping, and stakeholder communication through structured sessions and practical product cases.
- Maintained a **4.5/5 mentor rating** through individualized feedback and curriculum delivery.

AI Product Consultant, Part-time | Disha Publication Inc. | New Delhi, India | December 2025 - January 2026

- Designed AI-assisted workflows for video content production and proofreading, documenting process changes, tool requirements, and expected efficiency gains.
- Researched Indian content-licensing opportunities and supported early product research and documentation for an AI-enabled test-preparation platform.

Senior Product Manager and Product Manager | ZAZZ.AI, formerly Kunato.AI | Bengaluru, India | October 2020 - September 2025

Senior Product Manager, April 2025 - September 2025 | Product Manager, October 2020 - April 2025. Joined as the first Product Manager and was promoted after helping build and scale an AI-powered creator-monetization portfolio.

- Helped expand the publisher network from **25 to 10,000+ creators across 70 countries**, with a combined monthly audience reach of 90M+.

- Researched Indian content-licensing opportunities and supported early product research and documentation for an AI-enabled test-preparation platform.
- Launched ZZAZZ Signal and grew it to **1M+ direct monthly active users** (MAUs) while shipping seven products across semantic search, creator monetization, marketplace, analytics, and internal knowledge retrieval.
- Shipped a semantic-search mobile product that reached **100,000+ installs within 90 days** and received coverage in The Times of India.
- Integrated LLM analytics into the creator dashboard, reducing average insight-retrieval time from **25 seconds to 20 seconds**.
- Led **four product managers and three designers**, including collaboration with a **London-based design agency**, while aligning product, engineering, design, legal, and executive stakeholders.
- Ran **20+ pricing and monetization experiments** across the product portfolio.

Associate Product Manager | HelloTravel | Noida, India | November 2019 - July 2020

- Designed and launched a Travel Cost Calculator and used market, competitor, campaign, and user-behavior data to support personalization, product prioritization, and release planning.
- Planned targeted digital campaigns that reached **300,000+ people** and used performance data to identify acquisition opportunities.

EARLY CAREER

Growth Manager | Treks 'n Rapids | February 2019 - October 2019

Generated **INR 300,000** in incremental revenue over six months through regional go-to-market campaigns and market-development initiatives.

Founder and Creator | The Crazy Explorer | January 2017 - May 2018

Built and operated a travel-content platform, achieved approximately 10% month-over-month audience growth during the measured period, and established **15+ distribution partnerships within two months**.

Product Team Manager, Part-time | Aspire World Imaginations | December 2016 - February 2019

Trained **500+ participants** in WordPress, SEO, and digital workflows and contributed to initiatives associated with **INR 4 million** in additional revenue over 11 months.

AI PRODUCTS AND PROJECTS

Job Scout: Multi-Agent Job Sourcing Pipeline | Independent Product | 2026

Built and now operates a scheduled sourcing pipeline using GitHub Actions and chained LLM agents. Added a second-stage verifier that defaults to rejection, screens untrusted content for prompt injection, uses a circuit breaker, and enforces model cost limits.

The PM Code and Decoder | Founder and Product Builder | 2026

Built and shipped a free, open-source product that explains technical concepts to product managers in plain language and tested it with a 33-fixture adversarial evaluation suite. Validated a separate community concept through a fake-door test and chose not to build when the test did not meet the validation threshold. Now scaled to over **300+** unique users.

Chalo: AI Group Trip Coordinator | Independent Product | 2026

Shipped a Telegram-based minimum viable product using Next.js, Supabase, and the Anthropic Claude API, with group voting, constraint-aware destination suggestions, itineraries, bill splitting, and settlement links.

Internal Knowledge Assistant | ZZAZZ.AI | 2025

Built a Slack-based RAG assistant over 1,000+ internal documents, with natural-language retrieval, generated responses, and fallback handling for unsupported questions.

EDUCATION

Master of Business Administration, Dual-Award Program | IU International University of Applied Sciences, Germany, and London South Bank University, United Kingdom | September 2024

Business administration, product strategy, and digital business.
